## Zante cruise (\*Shipwreck\*, Blue caves)

It is made up of millions of small pebbles and is embraced by the blue shade of the sea that disappears into the horizon, it simply appears unique and magical. The shipwreck adds that special touch upon the astonishing beach and crystal clear water. Upon arriving with the vessel the towering vertical rocks appear as if they want to conceal it, which suddenly provides a breathtaking view over the entire bay.

(Stopping for photos at the shipwreck beach for 20 minutes). After the shipwreck beach we will stop for a refreshing swim for approximately 30 minutes, the location of the swimming stop will either be at the Blue Caves or at San Andreas beach. (This decision will be made by the Captain on the day of the cruise).

### **\* Shipwreck beach is closed this Season \***

Then we are moving on towards the famous blue caves which are spectacular and quite extraordinary. The Blue Caves are a unique spectacle that you will not regret seeing as the charm of the rocks and the beauty of the multicoloured sea collide with each other creating the magical colour of the rocks as they sink into the deep waters below.

(Touring for 15 minutes, enables for photos and videos).

Finally, we will arrive to St. Nikolaos. The tavernas on the sea front have a fantastic sea view of the harbour of St. Nikolaos and provide a very traditional meal with the beautiful seas and a little taste of Greece.

As we return towards Kefalonia we will have another swimming stop in a location decided by the Captain alongside Kefalonia. This stop will be approximately 25 minutes.

This is the symbol of the “sweetest” homeland that everyone is searching for. An enchanting and lush island that is “resplendent” with history and sensational beaches. Can a journey grant myth and immortality? It can, if its destination is Ithaca. Your journey to this Ionian island will be “legendary” and unforgettable.

## Vathi and Lazareto: the lady and the island

First stop will be for swimming just before arrival to Vathi (*for about 20 minutes*). Then we arrive to Vathi (*for about an hour and a half*) which is the island capital, it has been constructed in its deep bay and retains the charm and traditional architecture that you will find on all the Ionian Islands. The museums, cafes, shops and bars that are open all day, and the restaurants make up the town’s microcosm. Lazareto, the Saviour’s (*Sotiras*) islet is only a stone throw’s away with its small 17th century church and the 1817 building that used to be a quarantine building.

## Kioni: The romance - settlement of the Ionian Sea

Second stop (*for about an hour and a half*). It is impossible to not fall in love with Kioni, especially when you board a vessel in its sheltered bay and view the traditional village that has been constructed in an amphitheatre style. There are stone built houses, small cafes and restaurants with tables on the beach. The cruise ends with a stop at private beach of the captain’s choice (*for about 40 minutes*).
